14 December 2011

Congratulations to the Class of 2011 on a fine set of HSC results. The results, that this cohort has achieved clearly reflects the comprehensive and diverse nature of our enrolments, with many of our students achieving personal best results.

Students who performed exceptionally well were Erin Thornton, Steffi Benz, Lisa Hourn, Joel Sedorenko and Ella Rowe. These students are to be congratulated for their hard work and discipline as the results they achieved were not purely the result of natural ability. This is something that many of our aspiring students in Years 7 – 10 could learn from as they prepare for Years 11 and 12.

Congratulations also to Joel Sedorenko and Nicholas Systemans-Powers, whose Major Design Projects were nominated for selection for the 2011 HSC Industrial Technology showcase. This is an outstanding achievement and we now await the selection panel's final decision.

I was pleased to see that all of our subject areas performed well, but worthy of note are the following subject areas; Biology, Business Studies, Industrial Technology, Legal Studies, Mathematics, Modern History, History Extension, Music 1, Senior Science, Society and Culture and Textiles and Design all of whom had students achieve top band responses. The results achieved by our students in these areas could not have been achieved without the support of a dedicated set of teachers and to you the staff of Arndell Anglican College we thank you for all the effort you placed into these students over the course of their time here at Arndell.

ATAR results will be available to our students from Thursday 15 December and if there are any concerns or questions from our students regarding their ATAR results then they should contact Mrs Lynn Gillen Director of Curriculum, who will be available to deal with them.

As usual a comprehensive analysis of the HSC and ATAR results for 2011 will be provided to the college community in early February once the New Year has commenced.

Once again, well done to the Class of 2011 on achieving the results that you did and I hope you will now commence the next chapter of your life with much confidence.

Regards,

Mr Gareth Leechman  
MA MEd MACE MACEL  
Headmaster
