

14th September 2012

Dear Parents/Guardians,

At the end of next week we have two major activities occurring within the life of our college, the first being the Junior School Musical – The ‘Story-Tellin’ Man and the second is the Senior School camps. Unfortunately there is a clash with these two events and the first night of the Hawkesbury Representative Netball training sessions on Thursday 20th September.

I have been in contact with Mrs Toni Patterson the convenor of the representative teams for the Hawkesbury Association and discussed the matter with her. We are both of the opinion that the girls from Arndell Anglican College who have been selected in the train on squads for the Hawkesbury Association are to honour the commitments that they have with the college. So if your child is in the Junior School they are expected to attend the musical on Thursday 20th September and if they are in the High School they are expected to attend the college camp.

Mrs Patterson reassured me that their inability to attend the first night of training would not work against them in future selection processes. However you will need to follow the established process of informing Mrs Patterson of their inability to attend, this can either be in an email or letter directed to Mrs Patterson. All you need to do in the email or letter is informing her that they are a student at Arndell and that they will either be unable to attend due to the Junior School Musical or the High School camps. Mrs Patterson already has a list of students she expects will not be able to attend the first training session.

It is exciting to see so many Arndell students being selected for the train on squads and by making this decision Mrs Patterson and I are pleased that they will be able to honour the commitment they have made to both the college and Hawkesbury netball.

If you have any queries about the information in this letter then please feel free to contact me.

Kind Regards,

Gareth Leechman
